

Harrisburg High School **TIGER** Schedule

What is the TIGER Schedule?

Harrisburg High School is implementing a new schedule to provide students with the best educational opportunities. HHS staff felt that a flexible block schedule would benefit all students.

The HHS **TIGER** schedule is a modified block schedule. It offers the best of both a typical 9-period bell schedule and a block schedule.

How does it work?

Rather than following a typical Monday – Friday schedule, students follow their T, I, G, E, R schedule. On T, E and R days, students follow their 9-period schedule and see all their classroom teachers for 42 minutes each. On I and G days, students have an extended block schedule where students have class for 84 minutes; half of the classes will meet on I day, the other half of classes will meet on G day.

Example of the TIGER Schedule for a 5-week cycle:

M	T	W	TH	F
T	I	G	E	R
No school	T	I	G	E
R	T	I	G	E
R	T	Early Release @ 1:05 PM Modified T, E or R	No school	No school
I	G	E	R	T

Benefits & Advantages of the TIGER Schedule:

- Combination of regular class lengths and block classes provide variety for student learning experiences
- Increased opportunities for reaching multiple learning styles
- Longer periods of time for student inquiry, lab/skills practices, group collaboration, one-on-one conferencing, and/or modified assessments
- Assorted instructional strategies and delivery on I and G days
- Extended work time in zone with facilitators of content specific disciplines
- Offers similar opportunities for Customized, Traditional, and Leap High students
- Allows for more flexibility in student scheduling
- Provides extended lengths of time for hands-on learning
- More periods & mods allow for more courses to be taken – advancement, college prep, credit recovery, internships, and/or work-based opportunities
- No school days (including weather related) result in shifting of TIGER schedule to accommodate
